PUBLIC

Today's Top Story: Pentagon inks AI deals with seven tech companies for classified military systems — SpaceX, OpenAI, Google, Microsoft, and Amazon among them. Notably absent: Anthropic, which has been feuding with the Pentagon over AI misuse guardrails. This marks a major escalation in military AI integration.

Other Headlines

McKinsey reports \$3 return per \$1 spent on AI for enterprise clients. Musk-Altman OpenAI trial sees dramatic courtroom clash over AI extinction risk. Federal Reserve Vice Chair speaks on AI in financial systems. MIT Technology Review explores cyber-insecurity in the AI era.
